

Name: _____

Start Time

Directions: Label each number line and use it to solve each problem. Draw a dot on the line where you've found and labeled the start time.

- 1.) Connor was getting ready for school this morning. It took him 45 minutes to finish getting ready. If he finished getting ready at 8:30 am, when did he **start** getting ready?

- 2.) Logan is having a party! Woohoo! If the party is 1 hour and 30 minutes long and it ends at 4:00 pm, when does the party **start**?

- 3.) Zane went to the zoo last week. He spent 2 hours and 35 minutes at the zoo. If it was 1:00 pm when he left the zoo, what time did he **arrive** at the zoo?
